

Personal information template

Name: Aristomenis P. KARAGEORGIS

Tel: +30 22910 76369, **Fax:** +30 22910 76347

Address: 46.7 km Athens-Sounio Avenue, 19013 Anavyssos, Greece

Education: PhD in Oceanography (1992)

Research areas:

My major research areas are sedimentology (geochemistry and mineralogy) and particle dynamics (transmissometry, chemistry and mineralogy). Since 1994 I am working at the Institute of Oceanography of the Hellenic Centre for Marine Research (Greece), which is one of the largest Oceanographic Institutions in the Eastern Mediterranean. Analytical techniques applied in our studies include XRF (X-ray Fluorescence), thin-film XRF, XRD (X-ray Diffraction), SEM (Scanning Electron Microscope equipped with Energy Dispersive XRF), granulometry (Sedigraph 5100), and other.
