

Name: Hans Arne Nakrem

Tel: +47 22 85 17 32, **Fax:** +47 22 85 18 00

Address: University of Oslo - Geological museum, The Natural History Museums and Botanical Garden, P.O.Box 1172 Blindern, NO-0318 OSLO, Norway

Education: Dr. Scient. in palaeontology 1993

Research areas:

Mainly Carboniferous, Permian and Triassic bryozoans and conodonts from Svalbard. To some extent Lower Palaeozoic units of the Oslo Region, biostratigraphy (conodonts) and palaeoecology (bryozoans). Projects associated with these research areas involve carbonate sedimentology, depositional environments of carbonate shelves and reefs, encrustation of organisms and hard surfaces (e.g. bryozoans on corals) and general organism interactions.
